WORK EXPERIENCE

Intermediate Designer | NOA Design+Construction

June 2018 - Present | San Francisco, CA

- Collaborate with team members to create project vision studies and moodboards using Adobe Suite.
- Develop documentation for all design phases - programming, schematic design, bid sets and construction documents.
- Support communication between project team, clients, vendors, engineers, consultants, and building officials.

Architect | Lovekar Design Associates

January 2015 - June 2016 | Pune, India

- Rapid prototyping in form of hand-drawn sketches and 3D views to create visuals during schematic design process.
- Interacted directly and effectively with design principals and clients to get feedback and create innovative solutions to complex design problems.

Junior Architect | Formation Architects

August 2014 - January 2015 | Pune, India

- Assisted senior designer in creating design concepts & solutions that supported & improved overall user experience for educational buildings and multi-family housing.
- Interpreted design objectives in coordination with the senior designer and project manager to translate them into workable construction systems.

Architectural Intern | Kukke Architects

June 2013 - October 2013 | Bangalore, India

- Proposed design alternatives and prepared presentation drawings for various single-family residences.
- Analyzed and iterated design solutions based on feedback from clients and project managers.
